IN HONOR OF DECEMBER 7TH HEROES: In the
largest mass presentation of Purple Hearts ever staged
on Oahu, heroes of the December 7 attack were de-
corated. Seventh Air Force photo.

PREFACE

ARMY LIFE IN HAWAII presents a pictorial record of America's fighting forces on guard at this Pacific outpost. They are shown on maneuvers, flying giant bombers over volcanic mountains and sea, firing howitzers and anti-aircraft guns, peeling spuds on KP, enjoying sports and camp shows, off duty in Honolulu, and in action in the Southwest Pacific war zone.

Soldiers in Hawaii represent a cross section of American life. All are here with one objective in mind: to help Uncle Sam man the mightiest fortress in the world, "and to lick hell out of the Japs," as dough-boys put it.

Since the treacherous Japanese attack on Oahu December 7, 1941, this legion of men has transformed the topography of Hawaii into an arsenal for both defensive and offensive action.

Today, Hawaii bristles with armaments and confidence. Under the command of Lieut. General Delos C. Emmons, Commanding General of the Hawaiian Department, Hawaii's armed forces have been knit into a streamlined hard hitting combat team ready at a moment's notice to defend these islands or take a crack at the foe farther South.

We are proud to present for the first time this photographic record of their work, play and achievements.

Aloha,

Clarence L. Hodge
Don Senick

ACKNOWLEDGMENT

We are glad to record our indebtedness to these individuals and organizations who helped in many ways to make **Army Life in Hawaii** possible.

Grateful acknowledgment is made to Major R. D. Boyer, Army Signal Corps, for permission to use numerous excellent photographs.

For prompt censoring of materials, we wish to thank Major Harry Albright and Lt. Wilson Gaddis, Army Intelligence.

Helpful suggestions and photographs were contributed by Capt. Charles E. Shelton, Major Raymond W. Rumph, Capt. Maurice W. Dale, Capt. Patrick S. Bilks, Lt. H. Burroughs, and Sgt. Robert McEnery.

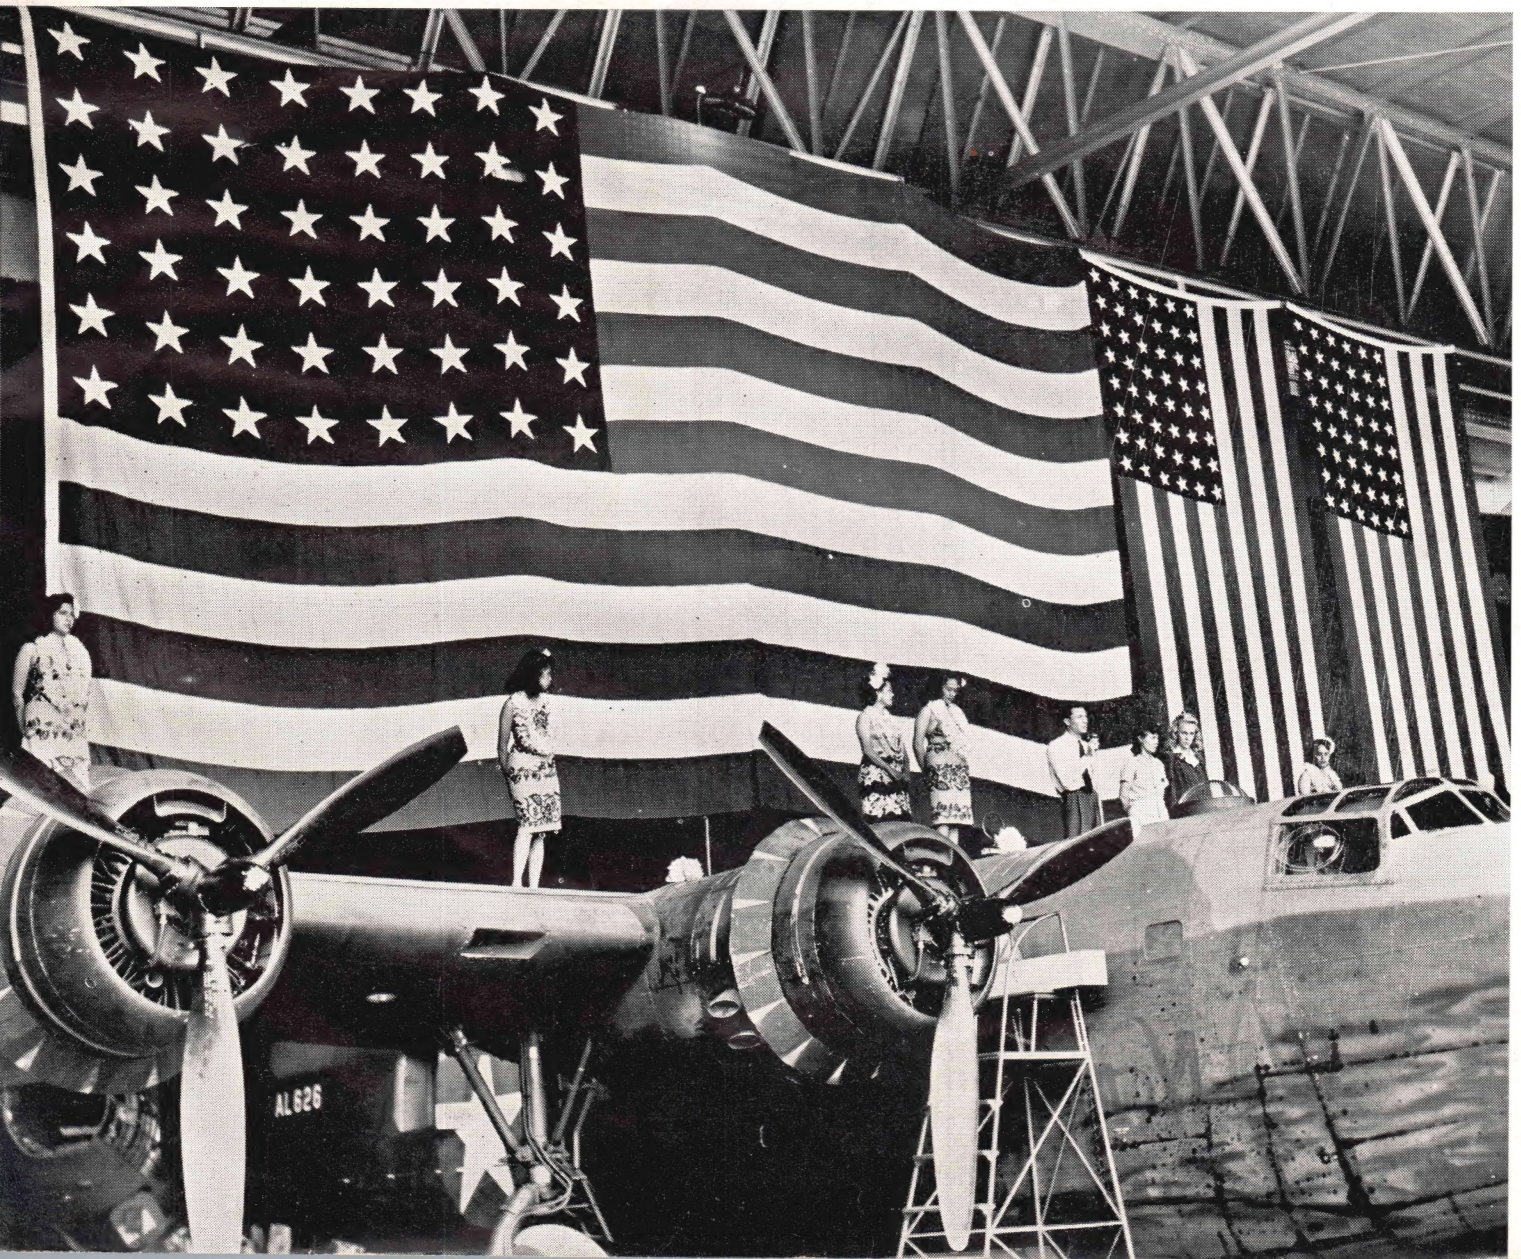

To Warrant Officer John F. Gregory, Editor of **Midpacifican**, Danny Morse, ace photographer of the **Advertiser**, Riley Allen, Editor of the **Honolulu Star-Bulletin**, and Seventh Air Force photographers, special thanks are due for making available photographs from their files.

Capt. John C. Nissen, Air Corps pilot, who has seen action at Midway and the Solomons, we cordially thank for playing the role of guinea pig for some of the shots.

But to Jane Hodge and Moke, and Helen Senick and Pancho, we owe the greatest debt for putting up with and even encouraging the antics and flights of fancy of two visionaries.
